Whitepaper

V1.0

Commerce on the Internet has come to rely almost exclusively on financial institutions serving as trusted third parties to process electronic payments.

While the system works well enough for most transactions, it still suffers from the inherent weaknesses of the trust based model.

Satoshi Nakamoto

Intro

I've always been passionate about technology and economics, specifically the Austrian school of economics, that's what led me to bitcoin and cryptocurrencies in 2013.

As one of the first users of this technology in Mexico and one of the first speakers I witnessed the process of blockchain since have been exciting, unexpected and amazing, I met the most brilliant and wonderful people thanks to this, but there is something missing for cryptocurrencies to be recognized as currency by economics: adoption.

It's a pleasure to introduce to you Domi, our token which its objective is to promote and speed up adoption in merchants and business.

Rodolfo J. Díaz - CEO

Domitai Token (DOMI)

Our token is called DOMI, a utility token that you can use to pay fees with amazing discounts.

We want to give you another reason to pay with crypto, that's Domi, everytime you pay in any business accepting cryptocurrencies with domitai you will earn Domi, this is how the token comes to initial circulation, you can also buy it to other users in the market at domitai.com

The amount of tokens earned by purchase will be set differently depending on the business or store.

Domi have a max supply of 199,999,999 Domi and runs on the NEM blockchain, you can store it in any supported wallet.

Token Date: 1 september 2019

Also with Domi you will receive an amazing discount on trading fees:

	1 st Year	2 nd Year	3 rd Year	4 th Year and after
Discount	50%	25%	12.5%	5%

Domitai is a Cryptocurrency Exchange in Mexico, a trading platform for digital and traditional currencies between users.

Our mission is to change the way commerce and financing is done in Mexico, and work to become one of the top financial institutions in Latam and Worldwide.

Domitai is the first cryptocurrency exchange in Mexico and Latin America to concentrate efforts and technology on merchant and business adoption, while we offer an easy and secure platform to buy and sell bitcoin, ethereum and more.

POS Point of Sale

We developed an easy to use point of sale system, that allows any store to accept any cryptocurrency listed in our exchange.

Every time a merchant accepts a payment through our platform and wants to have the funds converted to other cryptocurrency or fiat money, we use our order books to complete that transaction.

As cryptocurrencies are still in an early development stage, businesses usually can't keep most of their earnings in cryptocurrencies, some of them just can't keep balances because they need to make daily payments, specially small merchants.

Our solution to this is that users can personalize their point of sale so everything they get paid in cryptocurrencies is instantly converted to fiat currency and deposited into their bank accounts in less than 3 minutes, [try it out](#).

Checkout our [map](#) of business and stores already accepting payments with Domitai

Domitai Foundation

From all the tokens used to pay fees in domitai, 50% will be sent to the foundation and 50% will be recirculated to the merchants so they can keep offering Domi in every purchase.

More details about this will be updated on this whitepaper and the token website at the end of September this year.

Token Allocation

%	Participant
15%	Team
5%	Partnerships
10%	Airdrop & community
70%	Market Sale
